

FREQUENTLY ASKED QUESTIONS

- **I have not created my company yet, can I apply to the "French IoT" 2019 contest ?**

The competition is open to all innovative startups developing a connected solution (hardware or software) at a pre-commercialization or commercialization stage.

If your company is currently under creation, please mention this information in your application and add the planned date of creation of the legal structure.

Important : The legal structure should be created before August 2019.

- **I am a startup established abroad, how do I participate in the contest ?**

Structures established abroad, wishing to develop in France or in Europe are eligible for the French IoT 2019 contest. Submit your application online, choose a theme and make sure to select "**International**" in "region".

- **Are SMEs eligible for the "French IoT" contest ?**

SMEs developing an innovative solution in the Internet of Things (connected device or connected service), are eligible for the French IoT contest. SMEs applications will receive the same treatment as startups.

- **How can we work in partnership with La Poste ?**

Your innovative solution (a connected product or a service) can possibly be based on one of La Poste's existing offers or enrich the value of postal offers (Mail, Parcels, Services, etc.). Various branches of La Poste Group are involved at different stages of the selection process. They can offer a testing ground alongside the corporate partners, mainly for solutions associated with the "Services" theme.

- **Can I complete my file in several steps ?**

By registering on the contest platform, you can create your profile and start filling your application. You may complete your file in several steps.

As long as the contest period is still running.

317/5000

Your pitch video is required. You can share only via a Youtube link.

N.B : The contest will close on April 30, 2019 at midnight. After this date, your access will be disabled, and no changes will be accepted anymore.

If you need further information or assistance, contact us via the Forum on the contest platform or send an email to the French IoT Team at the following address: french-iot@docapost.fr
